

Company Policy on Payment of Services: The Patient and any other person responsible for payment has a right to refuse to pay, cancel payment or be reimbursed for payment for any other service, examination or treatment which is performed as a result of and within 72 hours of responding to the advertisement for the free, discounted fee or reduced fee service, examination or treatment.

You may avoid costly drug therapy and reduce recovery time from an expensive surgery to spend time **ENJOYING LIFE**, as you remember it!

Your doctor may have told you that your only option for relief is **SURGERY**. We are here to let you know, we may have an **ALTERNATIVE**.

➤➤➤ **"I can attribute my improved health to Scenic Health Alliance!"**

*I was diagnosed with a disc protrusion and could barely remain upright. The pain was so severe, I thought SURGERY was the only option. Just 10 weeks after my initial visit, the pain has subsided and I have experienced a significant increase in strength. The treatment I have received has been WORLD CLASS!"*

Advanced medical technology is available to you throughout your comprehensive treatment program.

A NOVA MILLENNIUM HEALTHCARE COMPANY

## Spinal Manipulation

An appropriate spinal manipulation technique will be determined depending on your x-ray and physical exam results. Our chiropractic physicians are well versed in numerous techniques including manual adjustments and low force techniques such as the use of the Activator instrument.

## Physical Therapy

Our goal is to use the most modern treatment modalities available to improve your condition, restore range of motion and increase mobility. Our physical therapists will consistently work one-on-one with each patient to achieve a highly individualized program.

## Axial Decompression

A non-surgical treatment for serious neck, back and leg pain, including pain associated with herniated discs. Decompression is achieved by unloading pressure on the sensitive spinal structures through distraction and positioning. This reduces inflammation, thereby reducing or eliminating pain.

## Cold Laser Therapy

Cold Laser uses light energy to stimulate tissue healing and to reduce inflammation within the injured tissue. This therapy is a great non-surgical, non-drug approach to treating many conditions such as muscle spasm and strain, ligament sprain, tendonitis, arthritis, burns, and skin disorders.

## Massage Therapy

Massage is used to relieve pain, and reduce stress and tension. Massage may relieve headaches, muscular spasms, aches and pains. Massage also helps to remove waste products from the muscles and decrease the formation of scar tissue associated with chronic muscle spasm.

## Acupuncture

Acupuncture aids in relieving problems with headaches, sinuses, carpal tunnel syndrome, stress, depression, knee, shoulder and wrist problems. Stimulation of specific points on the body enhances immune system function to properly allow the body to heal itself.
