

Ear Infections

Scenic Health Alliance
may help to reduce
and prevent recurring
ear infections!

Eight main symptoms
of an ear infection are:

- Cold symptoms,
- Fussiness during the day or night,
- Complaining of ear pain or hearing loss,
- Night-waking more frequently,
- Unwillingness to lie flat,
- Fever – usually low grade (101° - 102°),
- Sudden increase in fussiness during a cold,
- & Ear drainage.

It has been found that 93 percent of all episodes of ear infections (otitis media) treated, improved with chiropractic care. Seventy-five percent of the cases improved in 10 days or less, and 43 percent with only one or two adjustment (Froehle, 1996).
